☎ (788) 899-4829

## Education

**Chitkara University, Baddi, Himachal Pradesh**

B-TECH, Computer Science Engineering, Present

## Professional Summary

Programming enthusiast and technology buff. An introvert by nature and a keen learner, I am the go-to guy for most challenging of projects.

Projects:-

- Apartment Rental System
  - Developed using java servlets.
  - Hibernate ORM used for all stuff database.
  - Front end made using HTML, JavaScript, CSS and Bootstrap.
  - Advance Java - 3rd year
- Online medicine shop (front end only)
  - Developed using HTML, JavaScript, CSS and Bootstrap.
  - Introduction to front end - 2nd year.
- Project based on the study of error propagation in scientific measurements. To study the same, I developed a python program to calculate accurately the wavelength and error propagation in "Laser Diffraction Grating Experiment".
  - Research Project - 1st year

As rightly said by Linus Torvalds:-

**Talk is cheap. Show me the code.**

## Skills

CSS

JQuery

AJAX

Python
